“AMPLITUDE” - OUTRI & Harry Bird

(Music by Ian “Dodge” Paterson & Harry Bird // Lyrics by Harry Bird)

through the glass you observe
the world in turn looks up from work
far from home on some adventure
it’s a blur, the big picture

from the playground to the gates
nuns moor park to st james
wishing every day was calmer
all the detail, all the drama

so how much weight, how much string?
the amplitude of your swing
you’re sometimes train, sometimes station
pure harmonic locomotion
